THE **JONSSON** BRAND

Our story of purpose has seen us evolve into a revolutionary workwear business, supplying quality, strong and durable garments to local and international markets. We want to empower all workers to perform to the best of their ability every day. We believe in excellent service and products of the highest quality; manufacturing and distributing garments ourselves. This ensures we maintain excellent quality, hold sufficient stock and offer short lead times.

Our manufacturing facilities are based in Lesotho and Mauritius, and produce around 40 000 garments a day. These garments are distributed through our state-of-the-art Distribution Centre based in Johannesburg, which has the capacity to move 20 million pieces annually. Our 8000m^2 raw material warehouse based in Durban allows us to efficiently supply raw materials to our various manufacturing plants and further reduce our turnaround times. Although we're growing rapidly, our journey has just begun.

OUR SALES **CHANNELS**

STORES | ZONES | STOCKISTS

Our workwear is made available to our wearers through carefully selected **distributors** across Africa. Whatever your needs may be, we offer a complete solution to any workforce through our wide range of products. Our products are readily available to purchase at our **Jonsson Workwear stores**, **Jonsson Workwear Zones** and **Jonsson Workwear stockists** across southern Africa.

The **Jonsson Workwear stores** are iconic large retail stores that offer the ultimate gateway into the **Jonsson Workwear** world. These stores supply the full **Jonsson** range as well as a wide array of PPE for different industries. Every store has friendly, knowledgeable product experts and its own customising facility.

The **Jonsson Workwear Zones** are based on the concept of a "store-within-a-store". These zones are dedicated **Jonsson** retail spaces, stocking selected products but offering consumers access to the full range.

Jonsson Workwear stockists carry a range of industry-specific products.

CORPORATE WORKWEAR **SOLUTIONS**

We are privileged to be able to provide workwear solutions to some of the most iconic companies in southern Africa. Our offering includes corporate workwear, as well as custom-made solutions specific to customers' needs.

Building strong relationships with our corporate customers ensures that we can provide the perfect workwear solution to suit a diverse range of working environments. We provide a one-stop solution which includes conceptualising, designing and manufacturing. We pack the garments individually per wearer upon request, and distribute them to each business site.

Our dedicated sales advisors and customer care team offer strong support and efficient service throughout the process.

ICONIC **RETAIL STORES**

Just like many of our hard-working, loyal customers, we are proud of our workwear. That is why we have revolutionised the African workwear landscape by creating iconic retail stores that create the right environment for you to see, feel and try on our workwear.

Whatever your craft, profession, industry or passion, we promise to give you an amazing experience. A large range of carefully designed garments, a spectrum of colours to suit any business, on-site customising options and a team of experts ready to inspire and delight you – this is our workwear world.

CUSTOMISE YOUR **WORKWEAR**

ON-SITE EMBROIDERY & REFLECTIVE TAPE APPLICATION

A carefully customised uniform will inspire and motivate your team, making them proud to display your company name for the world to see.

We offer a unique, on-site, customised embroidery and reflective tape facility, where you can brand your workwear with your company logo or message.

Should your industry require high visibility for the safety of your employees, we are able to apply our JW REFLECT® tape to any of our garments to ensure your staff are noticed and therefore safe.

Using state-of-the-art embroidery machines and strong, colourfast and durable threads, we can guarantee you top-quality results with every embroidered garment by our skilled machinists.

EMBROIDERY REQUIREMENTS

- Your company logo (preferably a jpeg file) with your Pantone colour reference.
- The size and positioning of your logo(s).
- The quantity you require and what products you will be branding.
- Your final sign-off on our customisation approval form.

WHAT SOME OF OUR CUSTOMERS HAD TO SAY

"Awesome service from the embroidery staff at the eMalahleni store."
- Hilton van As, Exclusive Comforts

"Excellent service, helpful staff, great coffee and managed to get our company logo embroidery on the shirts in the store. Thanks Jacques for your great customer service."
- Wayne Potter

"Awesome staff and service. Excellent quality gear and embroidery is top class."
- Leigh-Anne Adams

"Fantastic service and best quality workwear. Helped us out with embroidering our uniforms at very short notice - we were so impressed!"
- Service Master

OUR ICONIC **BRAND**

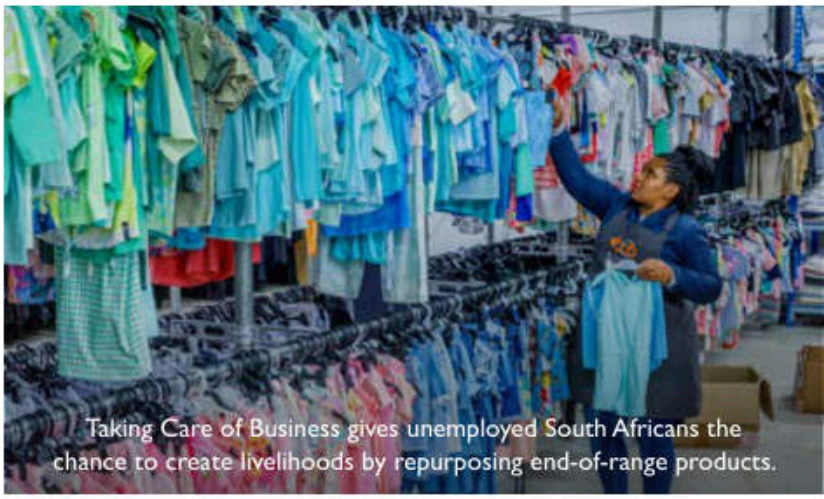

We support other iconic brands that share our values of integrity, hard work, peak performance and a pioneering spirit. We are proud of the relationships built over time with our influential and successful sponsorships. Some of the brands we sponsor are **The Sharks, Lions Rugby, SuperSport United, Toyota Gazoo, 4Racing,** and the **Jonsson Workwear Open**

Project Kopano rewards our hard-working teams with an immersive experience and holistic view of the Jonsson Workwear world.

Our team's care for the environment is showcased through voluntary initiatives such as the Umgeni Beach Cleanup

Taking Care of Business gives unemployed South Africans the chance to create livelihoods by repurposing end-of-range products.

PEOPLE WITH **PURPOSE**

Safeguarding the communities in which we operate, and conserving the biodiversity around us, is at the heart of everything we do.

Recycling at home and at work! Recycling efforts support our waste-preneurs who were previously homeless and now earn an income through recycling.

We support projects that raise awareness and empower survivors of gender-based violence, such as the Jess Foord Foundation.

The Jonsson Foundation is proud to be the Lead Partner to Rally to Read, advocating for literacy among young learners

We invest our time and effort in supporting people who live and work with purpose to create a better life for themselves and their communities. Our vision and values guide us in conducting fair and ethical business practices, looking after the communities in which we operate, and protecting the environment. We support education, gender and environmental initiatives to cultivate talented future leaders, a thriving planet and a better life through various beneficiaries.

THE JONSSON FIT

Our garments are purpose-made and specifically built for the people wearing them, therefore allowing for comfort and the ideal fit.

PEN DIVISION

This functional feature found on some shirts and work jackets are designed to fit a pen or carpenter's pencil securely. This feature is either stitched or bartacked on the left of the chest pocket.

LAPPED SEAMS

The raw edges of both sides of fabric are completely enclosed thus limiting any chance of fraying. The double or triple needle stitching holding this adds additional strength and stability to the seam.

REFLECTIVE TAPE

JW REFLECT® is our exclusive reflective tape that is lightweight and flexible. It is made from microscopic glass beads that reflect the light back to the original source to ensure that your visibility is improved during low light conditions.

WOMEN'S FIT

We have designed a range of women's workwear offering a flattering, feminine fit.

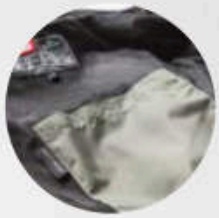

THE **JONSSON** DIFFERENCE

It is our obsession with quality, our innovative mindset and the attention that we pay to every detail that enables us to create our diverse range of strong and durable workwear products.

ADJUSTABLE CUFFS

This handy double-button feature allows the sleeve cuff to be adjusted, either tighter or looser depending on the wearer's requirements.

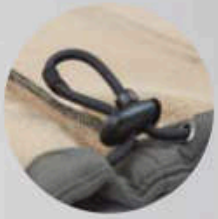

SAFETY POCKET

A concealed inner pocket is a practical and secure pocket on the inside of the garment, that can be used to stow away valuables.

ZIP GUARD

This is a facing behind a zip to provide protection to the wearer and prevent any contact with the zip teeth against the skin or undergarments.

TOGGLE SAFETY CORD

A toggle is attached to the side seam using **Petersham** tape, to prevent the cord from snagging.

CROSS-STITCHED WITH LOOP-LOCK BUTTON ATTACHMENT

All our buttons are attached with a cross-stitched sewing method and secured with a loop-lock to prevent unravelling.

WASHES

Various industrial washes are done on some of our jeans and cottons, ensuring that our garments are pre-shrunk for a better fit, have a comfortable feel and a worn-in look.

SELF-FABRIC POCKET BAG

Our generous pocket bags are made from self-fabric which ensures extra strength where items are stored.

HALF ELASTICISED WAISTBAND

This design feature allows workers to move freely in any working environment and alleviates the need to wear a belt.

HEAT SEALING

This is a PU tape applied to a seam to avoid water penetration through any perforation caused by the needle whilst closing the seam.

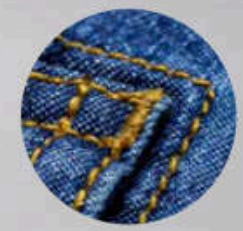

PRESS STUD CLOSURE

A press stud closure is a pair of interlocking discs that are used to fasten garments securely.

HOOK-AND -LOOP

Hook-and-loop comprises two lineal fabric strips, circles or squares consisting of opposing pieces, one with tiny hooks and the other with a dense pile, that interlock when pressed.

BAR TACKS

A bar tack is a small section of reinforced stitching on any stress point which makes the garment stronger and more durable.

QUALITY **PLEDGE**

We are fully committed to making workwear of the highest quality and durability so that wearers are protected in the workplace, and are empowered to perform at their best.

As the manufacturers of our own garments, we control and take responsibility for our quality, stock levels and lead times.

RAINPROOF

Our **Wet Weather Gear** is made from specialised rainproof fabric. Heat seal tape is applied to the sewn seams to prevent water from leaking through the seams of the garments, ensuring protection from the elements.

FLAME RETARDANT (W7)

The premium, flame retardant fabric finish used on selected garments provides the first line of defense against flash fire exposure. The treatment will result in the fabric self-extinguishing when the flame source is removed.

ACID RESISTANT

Our Acid Resistant garments are chemically treated to repel acid splashes, oil and water, and will not be destroyed by most chemicals.

VENTED

Our vented garments have vents under the arms and/or along the back yoke to assist in moderating the body's temperature in warm environments.

DAY/NIGHT VISIBILITY

We understand that the visibility of workers is essential in numerous working environments. The fluorescent fabric and reflective tape that we use on our High Visibility garments ensure that workers are visible in high-risk work environments.

DAY VISIBILITY

Our High Viz range uses fluorescent fabrics which are thoroughly tested to ensure workers stay visible and protected during the day.

NIGHT/LOW LIGHT VISIBILITY

Our highly advanced **JW REFLECT®** quality reflective tape is used on our High Visibility garments, ensuring that workers are seen during low light conditions when illuminated by a light source.

ULTRAVIOLET PROTECTED

Ultraviolet Protection Factor (UPF) indicates the level of the sun's UV radiation absorbed by the fabric. All **Jonsson Workwear** garments displaying this icon are rated UPF 50+ for your ultimate protection against the harsh effects of the sun, significantly reducing your skin's exposure to UV radiation.

QUICK REFERENCE **FEATURES**

ACID/FLAME (W8)

Our Acid Resistant and Flame Retardant garments have been chemically treated to offer thermal protection, as well as repel acid splashes, oil and water.

STRETCH

STRETCH ACTION FIT

Our Stretch garments consist of spandex for ease of movement and flexibility throughout the work day.

MOISTURE MANAGEMENT

A moisture management finish is a premium finish on fabrics which wicks away moisture from the body through the fabric, keeping the wearer dry and comfortable.

TSG

TRIPLE STITCH GUARANTEE

We triple stitch the stress seams on selected garments, allowing for ultimate endurance and durability in the workplace.

STEEL TOE CAP

Our safety footwear has a protective toe cap which protects the foot from falling objects or compression and is an essential in many industries.

100% COTTON

100% COTTON

Cotton is a natural fibre, ensuring that the wearer is comfortable, cool and dry throughout the day. Our 100% cotton garments are easy to care for and are durable.

Icons are used as a simple, illustrative guide to the components within our workwear range. These icons provide you with the key benefits for each product, and are used to represent various qualities unique to the product.

- Tumble Dry (Hot Heat)
- Do Not Tumble Dry

BLEACHING GUIDELINES

- Bleach
- Do Not Bleach

DRY CLEANING

- Dry Clean
- Do Not Dry Clean

Your **Jonsson** garments are designed to withstand the elements in many different environments, however, they will last longer if they're well taken care of. We encourage you to follow the wash care instructions on each garment label. Generally, we recommend that you wash your garments in cold water and hang them inside-out to prevent fading. Cotton is made to fade, so the best way to hang 100% cotton garments is out of direct sunlight. It is preferable to avoid tumble drying your garments as this may cause shrinkage and fading. Remember to wash dark and light colours separately to avoid the colours mixing.

PRODUCT GUIDE

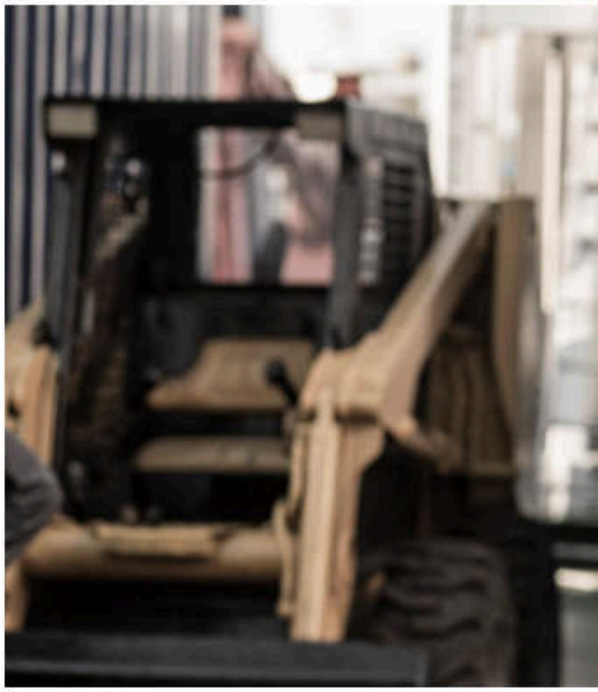

01 WORK JACKETS & TROUSERS

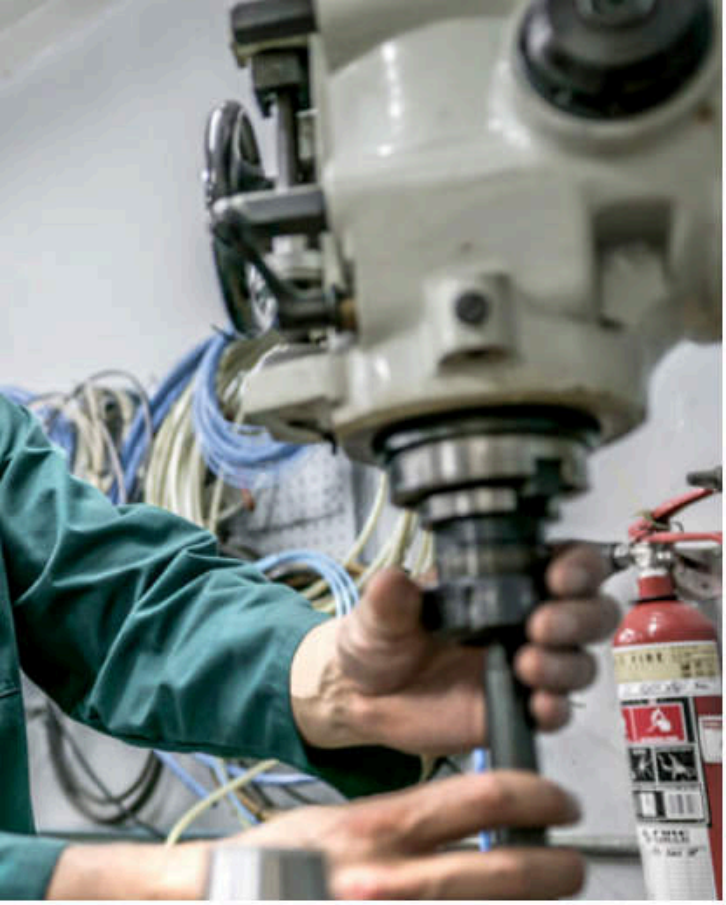

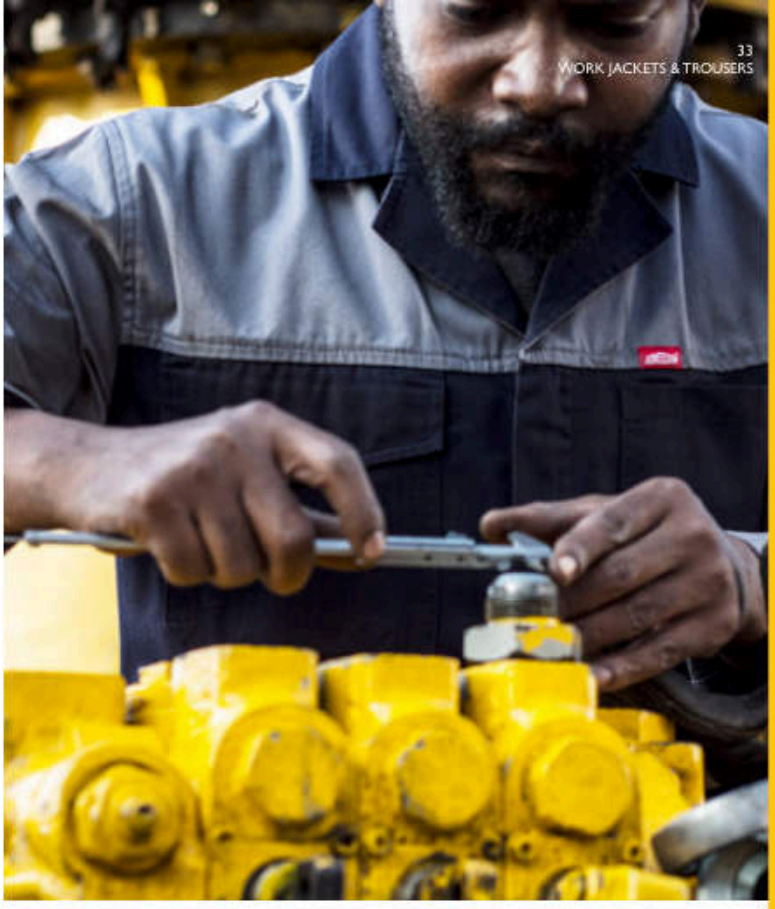

HIGH PERFORMANCE

C77 SERIES

WORK JACKET AND TROUSERS

JONSSON® WORKWEAR

The **C77 Series** is unrivalled high-performance workwear, created for hard-working people everywhere. We're inspired by the people who have played an integral role in forming the backbone of our economy through their contribution across all industries. The **C77 Series** high-performance work jacket and trousers are made from **VERSATEX**®, our special polycotton twill that is super durable, comfortable and holds its colour for longer.

HIGH PERFORMANCE C77 SERIES WORK JACKET

SECURITY SHIRTS

The military, paramedic and security industries are made up of heroic people who have dedicated their lives to helping others. Inspired by their commitment to serving others and the purpose with which they work, we have developed a range that celebrates their strength and courage.

We believe that people should be clothed in quality, functional clothing to ensure their comfort and productivity in the workplace. For this reason, we have used our special **VERSATEX®** 65/35 polycotton twill fabric on these garments.

HIGH VIZ

REFLECT AND PROTECT

JW REFLECT® 0905

FLAME RETARDANT REFLECTIVE TAPE

JW REFLECT® 0905 is a fire retardant reflective material that meets the requirement for heat resistance, making it ideal for use on flame retardant garments to enhance visibility in low light conditions.

JW REFLECT® 1204

REFLECTIVE TWO-TONE TAPE

JW REFLECT® 1204 is a twin trim tape consisting of a combination of two separate materials: a substrate layer of 50mm wide woven 100% polyester fluorescent webbing with PU Coating on reverse and a reflective layer of 18mm wide **JW REFLECT® 2907** reflective tape.

JW REFLECT® 2907

SUPERIOR PERFORMANCE REFLECTIVE TAPE

JW REFLECT® 2907 is a premium reflective material. It is specifically constructed to look brighter and offers the highest levels of reflectivity and performance.

At **Jonsson Workwear,** we are pioneering the high visibility industry in Africa by using our exclusive range of **JW REFLECT®** reflective tapes on our high-visibility garments.

SHINING A LIGHT ON PEDESTRIAN SAFETY

Twenty-seven million people use our roads daily, with the majority including workers and students on their daily commute. For this reason, our VIZI Belt initiative aims to keep vulnerable pedestrians and motorists safe, and prevent tragedies on our roads. We are committed to giving away **3 million FREE high-visibility belts.**

The high-visibility belts are made from a 50mm wide tape that allows wearers to be visible during the day. The reflective silver strip on the belt helps to increase visibility in lowlight conditions. These belts are made available, free of charge at any of our stores nationwide or online.

We encourage individuals to champion this initiative for a worthy cause and help us get VIZI Belts into the hands of people that need them. By working together, we can create a brighter and safer future for South Africa.

flame retardant
acid resistant

10 TECHNICAL

FLAME RETARDANT **WORKWEAR**

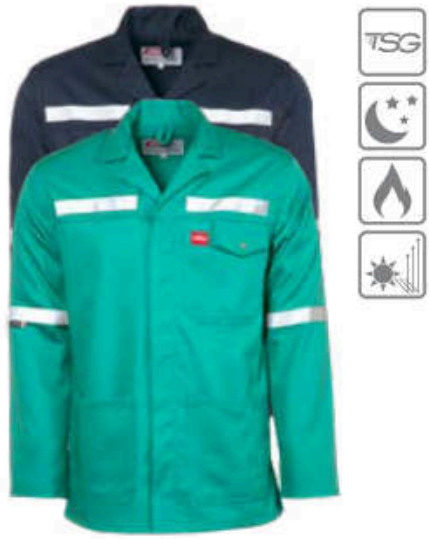

Our flame retardant garments have been chemically treated to offer thermal protection in environments that experience flash fires or molten metal splash exposures.

This 100% cotton fabric is chemically treated to resist heat and sparks by self-extinguishing once the source of the ignition has been removed, ensuring little, if any, burn damage.

These environments include:

- Electrical Maintenance
- Oil and Gas Explorations
- Steel and Petrochemical Interaction

The **Jonsson Workwear** flame retardant fabric meets the requirements of the **SABS 1423 Part 1-1987** test for performance requirements for textile fabrics of low flammability. This fabric is therefore **SABS** approved.

ACID RESISTANT **WORKWEAR**

Our acid resistant garments are manufactured from polyviscose. This fabric blend of polyester and viscose ensures a durable yet comfortable wear, and is chemically treated to repel acid splashes, as well as oil and water.

Acid resistant garments should be worn in industries such as:

- Chemical manufacturing
- Mining
- Plating
- Printing
- Metal processing
- Papermaking

ACID RESISTANT AND FLAME RETARDANT **WORKWEAR**

Our acid resistant and flame retardant garments have been chemically treated to offer thermal protection as well as repel acid splashes, oil and water.

These garments are suitable for industries in which acid resistant or flame retardant garments should be worn, but is often used in environments where employees need to move between departments that require either of the treated garments.

This fabric is tested according to internationally used test methods, including the German Din Test, and meets the SABS 1423 Part 1-1987 for performance requirements for textile fabrics of low flammability. This fabric is SABS approved.

11 HOSPITALITY

Our lightweight Luxury Chef Jacket is made from 100% cotton which not only helps keep you cool in a heated kitchen but is also extremely comfortable and allows for breathability. The jacket utilises mesh vent technology with a 100% cotton mesh under the arms and a full mesh vent in the back of the garment, allowing for air flow and ventilation.

This elegant double-breasted jacket has an angular styled button-down front and subtle self-colour **Jonsson** embroidery on the conveniently-placed sleeve thermometer pocket. Available in both a men's and women's fit. We have ensured comfort and ease of movement for all body shapes to keep you looking professional at all times.

SIZES: 5 6 7 8 9 10 11 12
COLOURS: Brown
FEATURES: Wide fit steel toe cap withstands an impact load of 200J / Complies with EN ISO 20345:2011 S1 SRC / Steel shank midsole for added support and stability / SRC slip resistance rating / Direct injection construction / Full grain leather upper / Antistatic dual-density PU sole / Easy slip-on design with elastic side gussets / Front and back pull tabs / High-density PU insole offers comfort and support

DOLOMITE CHELSEA BOOTS
/JN2006

MATERIAL: Full grain leather
SIZES: 5 6 7 8 9 10 11 12
COLOURS: Black
FEATURES: Wide fit steel toe cap withstands an impact load of 200J / Complies with EN ISO 20345:2011 S1 SRC / Steel shank midsole for added support and stability / SRC slip resistance rating / Direct injection construction / Full grain leather upper / Antistatic dual-density PU sole / Easy slip-on design with elastic side gussets / Front and back pull tabs / High-density PU insole offers comfort and support

STEEL TOE CAP GUMBOOTS

SUPERIOR SOCK LINING
For soft comfort that dries quickly

ANKLE PROTECTION
Padded ankle with concave inner for added comfort and protection

TEXTURED GRIPS
For ease of pulling up

KICK-OFF SPUR
For easy, hands-free boot removal

SHIN GUARD
Reinforced shin for improved protection and boot rigidity

WOOL INSOLE
Anti-bacterial, moisture-absorbing wool insole

PVC SOLE
Hard-wearing, flexible tread provides improved traction

STEEL TOE CAP
Shields toes from falling hazards, with protection up to 200J

TOE BUMPER
Provides additional toe protection

STC GUMBOOTS
/JGBSTC

MATERIAL: PVC upper.
SIZES: 5 6 7 8 9 10 11 12
COLOURS: Black

FEATURES: Complies with EN ISO 20345:2011 standards with an SB safety rating / Steel toe cap shields toes from falling hazards with protection up to 200J / Reinforced shin for improved protection and boot rigidity / Toe bumper provides additional toe protection / Hard-wearing and flexible PVC sole provides improved traction / Padded ankle provides ankle protection while the concave inner provides additional room for the ankle / Superior sock lining for soft comfort that dries quickly / Anti-bacterial, moisture-absorbing wool insole /Textured grips for ease of pulling up / Kick-off spur at the heel for easy, hands-free boot removal

ANKLE GUMBOOTS
/JABT

MATERIAL: PVC upper, Virgin PVC sole
SIZES: 4 5 6 7 8 9 10 11 12
COLOURS: Black, White, Bottle Green
FEATURES: PVC general purpose gumboot for comfort and flexibility / Ergonomically designed / UV stabilised PVC to maintain colour durability / Virgin PVC, non-slip, hardwearing sole with strong grip / Superior 100% polyester sock lining / Flexible tread pattern to eliminate surface build up / Moulded wool innersole for comfort / Elastic side gussets gives additional support and comfort

GENERAL PURPOSE GUMBOOTS
/JGBT

MATERIAL: PVC upper, Virgin PVC sole
SIZES: 4 5 6 7 8 9 10 11 12
COLOURS: Black
FEATURES: Extra-length general purpose gumboot for comfort and flexibility / PVC specially treated general purpose gumboot for comfort and flexibility / Ergonomically designed / UV stabilised PVC to maintain colour durability / Virgin PVC, non-slip, hardwearing sole with strong grip / Superior 100% polyester sock lining / Flexible tread pattern to eliminate surface build up / Moulded wool innersole for comfort

CE APPROVED PVC CLOGS
/JGCLOG

MATERIAL: Virgin PVC
SIZES: 3 4 5 6 7 8 9 10 11 12
COLOURS: White
FEATURES: Oil and acid resistant sole and upper / Complies to EN ISO 20347 / UV stabilised PVC to maintain colour durability / Virgin PVC, non-slip, hard-wearing sole with strong grip / Flexible tread pattern to eliminate surface build up / Superior 100% polyester sock lining / Moulded wool innersole for comfort

CE APPROVED PVC SHOES
/JGSHOE

MATERIAL: Virgin PVC
SIZES: 3 4 5 6 7 8 9 10 11 12
COLOURS: White
FEATURES: Oil and acid resistant sole and upper / Complies to EN ISO 20347 / UV stabilised PVC to maintain colour durability / Virgin PVC, non-slip, hard-wearing sole with strong grip / Flexible tread pattern to eliminate surface build up / Superior 100% polyester sock lining / Moulded wool innersole for comfort

CE APPROVED GUMBOOTS
/JGBT

MATERIAL: Virgin PVC
SIZES: 4 5 6 7 8 9 10 11 12
COLOURS: White, Bottle Green
FEATURES: Complies to EN ISO 20347 / Oil and acid resistant sole / Ergonomically designed / UV stabilised PVC to maintain colour durability / Virgin PVC, non-slip, hard-wearing sole with strong grip / Flexible tread pattern to eliminate surface build up / Superior 100% polyester sock lining / Moulded wool innersole for comfort

GUMBOOT **CARE**

Foot hygiene is of particular importance when wearing gumboots. This is because sweat cannot be absorbed by PVC and when heat and sweat combine, germs and bacteria form rapidly.

ROUTINE CARE:

THE INTERIOR
The polyester inner sock lining of the Jonsson Workwear Gumboot allows for easy cleaning and quick drying. A mild disinfectant can be used on the interior of the gumboot, but it must be rinsed thoroughly and left to dry. The innersole may be taken out, and once loose dirt is removed, it can be washed with mild soap and water, and left out to dry.

THE EXTERIOR
The outside of the gumboot can be washed with mild soap and water. Chemicals and solvents should never be used, as these will cause the gumboot to become brittle and crack.

THE TREAD
To remove soil build-up in the tread pattern of the sole, use mild soap, water and a scrubbing brush.

IMPORTANT!
NEVER use heat to accelerate the drying process.

GUMBOOT **SOCKS AVAILABLE**
see page 179

FOOTWEAR ACCESSORIES

ALL-DAY COMFORT

ANKLET SOCKS
/ASOCK

FABRIC: 60% Cotton, 38% Polyamide, 2% Elastane
SIZES: 4 - 7 8 - 12
COLOURS: Black, Fatigue, Khaki, Navy, Grey
FEATURES: Antibacterial treated to prevent development of foot fungus and odour / Extra fine toe seam for added comfort / Reinforced heel and toe for durability / Half cushioned for wearer's comfort / Elastic ankle band hugs sock to your foot and prevents slipping / High cotton content for all-day comfort

LOW CUT SOCKS
/LSOCK

FABRIC: 60% Cotton, 38% Polyamide, 2% Elastane
SIZES: 4 - 7 8 - 12
COLOURS: Black, Fatigue, White, Navy, Grey
FEATURES: Antibacterial treated to prevent development of foot fungus and odour / Extra fine toe seam for added comfort / Reinforced heel and toe for durability / Half cushioned for wearer's comfort / Elastic ankle band hugs sock to your foot and prevents slipping / High cotton content for all-day comfort

RIBBED SOCKS
/RSOCK

FABRIC: 60% Cotton, 28% Acrylic, 12% Nylon
SIZES: One Size Fits All
COLOURS: Brown Mélange, Royal, Maroon, Charcoal Mélange, Black, Khaki Mélange, Deep Red, Sky Blue, Navy, Olive, Airforce Blue Mélange
FEATURES: Knitted cotton-rich yarn for all-day comfort / Antibacterial treated to prevent development of foot fungus and odour

GUMBOOT SOCKS
/GSOCK

FABRIC: 49% Acrylic, 44% Cotton, 3% Polyester, 4% Elastane
SIZES: 8 - 11
COLOURS: Black, Bottle, Blue, Solid Black
FEATURES: Natural cotton foot for all-day comfort / Acrylic leg offers natural stretch and is quick drying / Fold-over top

HIDDEN SOCKS
/HSOCK

FABRIC: 60% Cotton, 38% Polyamide, 2% Elastane
SIZES: 4 - 7 8 - 12
COLOURS: Black, White, Navy, Khaki, Grey, Fatigue
FEATURES: Antibacterial treated to prevent development of foot fungus and odour / Extra fine toe seam for added comfort / Reinforced heel and toe for durability / Half cushioned for wearer's comfort / Elastic ankle band hugs sock to your foot and prevents slipping / High cotton content for all-day comfort

PU INNERSOLE
/JINSL2

FABRIC: Top Layer: Cotton / Bottom: Polyurethane
SIZES: 5 6 7 8 9 10 11 12 13
COLOURS: Black
FEATURES: Pre-moulded polyurethane innersole with additional arch support / Top layer is made from a cotton that is breathable / Antibacterial and antifungal / Massage nubs stimulate blood circulation

INNERSOLE
/JINSL

FABRIC: Top Layer - 100% Wool / Bottom Layer – 100% Polyester
SIZES: 5 6 7 8 9 10 11 12 13
COLOURS: Grey
FEATURES: Additional arch support and raised heel section / 5mm moulded EVA foam for extra comfort / Poron insert for extra shock absorption / Antifungal treatment / Odour resistant / Anti-static / Absorbs perspiration / Breathable

CUSTOMISE
YOUR FOOTWEAR

We have carefully selected an amazing range of colourful laces for you to mix and match. Choose between thick or thin laces that come in different lengths, that best fit your shoes.

Stand out from the crowd by simply changing your shoelace colour. Match them to your garments or express your company's unique corporate colour.

COLOUR ROUND SHOE LACES /JCLACE1 AND COLOUR ROUND BOOT LACES /JCLACE2

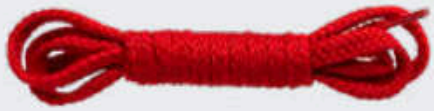

FABRIC: 100% Polyester
LENGTH: Shoe: 60cm
Boot: 110cm
COLOURS: Red, Orange, Yellow, Green, Blue, Pink
FEATURES: Sealed ends to avoid fraying / Hardwearing to secure tight hold on shoe and boots / Extremely durable polyester laces

SHOE & BOOT LACES

SHOE AND BOOT LACES /JSLACE

FABRIC: 100% Polyester
LENGTH: Shoe: 110cm
Boot: 125cm
COLOURS: Black, Brown
FEATURES: Sealed ends to avoid fraying / Hard-wearing to secure tight hold on shoes and boots / Extremely durable polyester laces

FLAT BOOT LACES /JSLACE7

FABRIC: 100% Polyester
LENGTH: 120cm
COLOURS: Red
FEATURES: Sealed ends to avoid fraying / Flat hard-wearing to secure tight hold on boots / Extremely durable polyester laces

ROUND BOOT LACES /JSLACE5

FABRIC: 100% Polyester
LENGTH: 120cm
COLOURS: Black, Brown
FEATURES: Sealed ends to avoid fraying / Hard-wearing to secure tight hold on boots / Extremely durable polyester laces

ROUND SHOE LACES /JSLACE6

FABRIC: 100% Polyester
LENGTH: 90cm
COLOURS: Black, Brown, Olive
FEATURES: Sealed ends to avoid fraying / Hard-wearing to secure tight hold on shoes / Extremely durable polyester laces

BELTS

BUCKLE UP

Our belts are crafted from full grain leather and, as with all our products, are durable, comfortable and hard-working.

As it burnishes, the leather gets better with age.

SADDLE STITCHED BELT
/SSBELT

MATERIAL: Full Grain Bovine Leather
SIZES: S M L XL 2XL
COLOURS: Brown, Tan, Black
FEATURES: Made from the finest quality full grain bovine leather / 40mm width / Antique nickel square buckle

LEGENDARY BELT
/LLBELT

MATERIAL: Full Grain Genuine Leather
SIZES: S M L XL 2XL
COLOURS: Brown
FEATURES: Full grain genuine leather cow hide / 40mm wide / Antique brass roller buckle / Finished off in a Legendary brown rustic finish

BUSINESS BELT
/BLBELT

MATERIAL: Full Grain Genuine Leather
SIZES: S M L XL 2XL
COLOURS: Black
FEATURES: Full grain genuine leather / 35mm wide / Cow hide finished off in black shine / Square silver buckle

IMAGE BELT
/LBELT

MATERIAL: Full Grain Genuine Leather
SIZES: S M L XL 2XL
COLOURS: Black
FEATURES: Full grain genuine leather cow hide / 40mm wide / Antique nickel roller buckle / Finished off in a black rustic finish

KEYRINGS
/JWKEY

MATERIAL: Full Grain Bovine Leather
SIZES: Standard
COLOURS: Brown,Tan, Black
FEATURES: 80mm x 20mm full grain leather / 30mm split ring / Brass rivet / Made using only off-cuts left over from our premium belts, not wasting a scarce natural resource

INDESTRUCTIBLE BELT
/INBELT

MATERIAL: German Bonded Leather
SIZES: S M L XL 2XL
COLOURS: Black, Brown
FEATURES: Hardened steel buckle / The strap has been tested for flexes on all stress points / 38 mm belt width / It is mould resistant and designed to withstand years of daily use / Embossed **Jonsson** branded belt loop / Embossed sizing on the back / The plating for the buckle is nickel over copper with an antiquing agent / 42 mm buckle width / A belt for the toughest working conditions

STRETCH REVERSIBLE BELT
/RVBELT

MATERIAL: Premium Stretch PU
SIZES: S M L XL 2XL
COLOURS: Black, Brown
FEATURES: Pressure cast zinc alloy buckle / Reversible 2-in-1 accessory / Built-in stretch for undeniable comfort / Embossed buckle with the **Jonsson** branding that reverses / 40 mm width black side with double row of stitching / Brown side with double row of stitching 38 mm width

FEATURES: Full grain genuine leather belt for added strength and durability / Buckle made from pressure cast zinc alloy, brass over copper / Buckle width 32 mm / Belt width 29 mm / Crossover loop feature underneath the buckle / Embossed sizing on the back of the belt below the buckle

WOMEN'S STITCH BELT/WSTIT

MATERIAL: Full Grain Genuine Leather
SIZES: XS S M L XL 2XL
COLOURS: Black, Tan
FEATURES: Full grain genuine leather / Buckle made from pressure cast zinc alloy, nickle over copper with a brushed finish / Buckle width 36 mm / Belt width 33 mm / Double stitch detailing at the top of the belt below the buckle / Embossed sizing on the back of the belt below the buckle

16 PPE

HAND PROTECTION

As a leader in workwear solutions, we place the highest demands on the products we offer our customers and have engineered a new range of hand protection to withstand the harshest working environments.

Our range of gloves complies with the highest industry standards protecting you from physical harm and mechanical risks, including abrasion resistance, blade cut resistance, tear resistance and puncture resistance.

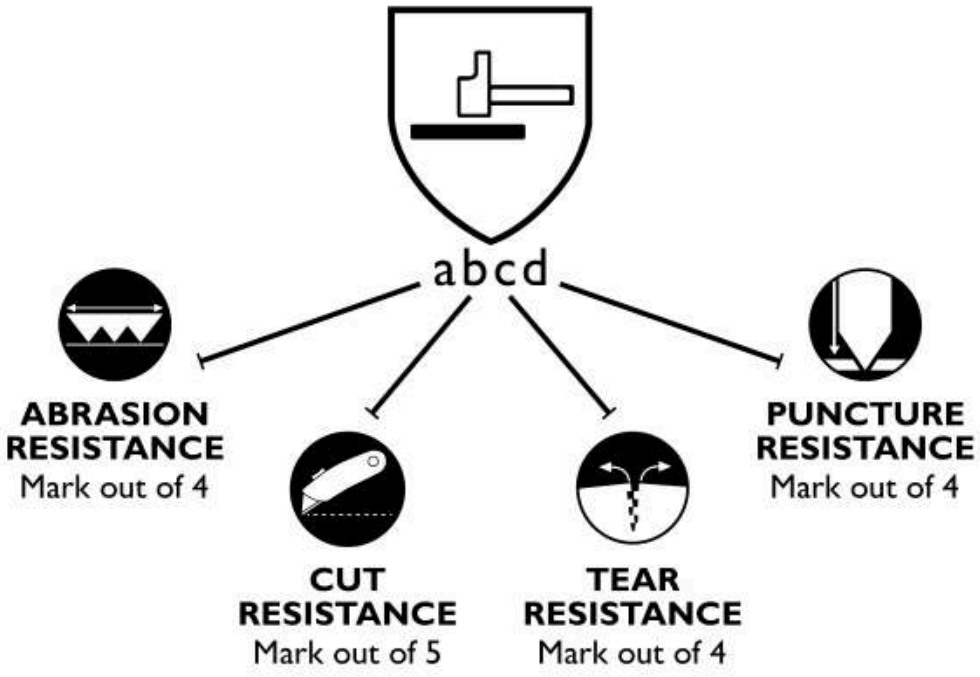

TEST	PERFORMANCE LEVELS				
	Level 1	Level 2	Level 3	Level 4	Level 5
a. Abrasion resistance (number of cycles)	100	500	2000	8000	-
b. Blade cut resistance (factor)	1.2	2.5	5	10	20
c. Tear resistance (newton)	10	25	50	75	-
d. Puncture resistance (newton)	20	60	100	150	-

RISKS	PVC	LEATHER	PU	LATEX	NITRILE
Elasticity / Flexibility	Average	Poor	Very good	Very good	Good
Abrasion	Excellent	Excellent	Good	Good	Excellent
Cut resistance	Average	Good	Average	Average	Average
Tearing	Good	Excellent	Good	Good	Good
Perforation	Average	Good	Average	Average	Average
Heat	Poor	Excellent	Poor	Poor	Poor

EN 388

PROTECTION AGAINST MECHANICAL HAZARDS

PVC

CHARACTERISTICS

- Good mechanical functions and suitable for cold temperatures
- Anti-acid and anti-alkali
- Very good resistance to abrasion, protects from grease and oil penetration
- Protection against harmful effects of chemical solvents, acid solutions, petrochemical products and other harmful substances

LEATHER

CHARACTERISTICS

- Offers excellent protection against heat and cold
- Suitable for heavy work outdoors
- Excellent for welding and high temperature environments
- Not suitable for wet/moist conditions

PU

CHARACTERISTICS

- Offers superior sensitivity and dexterity
- Great tear and abrasion resistance
- Elastic, micro-hole construction
- Very durable with good resistance to ozone corrosion
- Offers a snug fit for an exceptional sense of touch and outstanding comfort

LATEX

CHARACTERISTICS

- Soft, elastic, natural rubber
- Offers strong grip, dexterity, good abrasion resistance, puncture-resistance and overall durability
- High elasticity and exceptional grip capabilities compared to Nitrile gloves
- Chemical resistance - excellent resistance against alcohols and certain ketones, but performs poorly around most hydrocarbon and organic solvents, such as gasoline and kerosene
- Can withstand high temperatures and has great tear resistance

NITRILE

CHARACTERISTICS

- Flexible material with excellent resistance to grease, oil and hydrocarbon derivatives
- Stronger than latex and does not cause allergic reactions
- Lacks the great stretch and grip of latex, but is prized for its strength
- Provides higher abrasion protection than latex
- 3x more puncture resistant than latex
- Chemical resistance - suitable for work with oil and other lubricants
- Not suitable for high temperatures

NITRILE COATED GLOVES

Nitrile rubber is a copolymer of acrylonitrile and butadiene. It offers excellent physical-hazard resistance to punctures, cuts, snags and abrasion, almost three times more compared to natural rubber.

Nitrile rubber has considerable resistance to oils, fuels and certain organic solvents, thus making it is a good choice for handling small oily parts or metal stamping.

NITRILE FACTS

- Nitrile rubber has the lowest allergy rate of any glove material on the market. This makes them the most comfortable glove for everyday users.
- Nitrile rubber has extremely high chemical resistance, strong puncture resistance and biohazard protection.
- Nitrile rubber is food safe and is the preferred glove material of choice for the food industry.

JW POLYESTER NITRASMOOTH PALM GLOVES 5 PACK /30390

SIZES: 8 9 10
COLOURS: Green

JONNYMA offers maximum cut protection with minimum weight

WHAT IS **JONNYMA?**

- JONNYMA is a form of Ultra High Molecular Weight Polyethylene (UHMW-PE)
- UHMW-PE is one of the world's strongest and lightest fibres
- 10 times stronger than steel for reliable cut protection, whilst offering enhanced user comfort and dexterity
- CE approved to EN388, Cut Resistance level 5
- Chemical Resistant - Jonnyma fibre performs very well in dry, wet, salty and humid conditions, as well as other situations where chemicals are present
- Moisture Resistant - Jonnyma fibre floats on water and resists water absorption, which provides an extra level of protection and durability
- UV Resistant - Jonnyma fibre shows strong resistance to photo degradation when exposed to UV light, ensuring continuous high performance

JW NYLON NITRILE DOUBLE-DIPPED GLOVE /30380

Suitable for a wide range of industries such as petro mechanical, agricultural, automotive, maintenance, machining industry, logistics and warehouse handling.

Grey 15 Gauge Nylon sock – wrist length

Nitrile sandy coating on palm area for excellent grip and hand protection in wet and oily conditions

Fully dipped nitrile smooth finish provides full hand protection and liquid repellence

SIZES: 8 9 10
COLOURS: Blue
FEATURES: 15 Gauge nylon sock / Nitrile sandy coating on palm area / Flexible and comfortable / Excellent abrasion resistance / Oilproof, anti-acid and anti-alkali penetration resistance / Suitable for petro mechanical, agricultural, automotive, maintenance, machining industry, logistics and warehouse handling.

CE Approved to EN388:2016 with rating of 4121X.

PU COATED GLOVES

Do you ever feel the need for high quality protective gloves while working in difficult conditions? The best solution for your problem is polyurethane coated gloves, ideal for demanding and risky jobs. Whether you are looking for a comfortable grip, ease of use, neat design or snug fit, polyurethane gloves are fit for many jobs.

Superior abrasion and grip is provided by special textured polyurethane on the inside of the palm. Polyurethane coated gloves are also easy to clean and maintain, thus extending their lifespan. Simply wash any debris or oils with water-based cleaning solutions or soap and your gloves will be in perfect condition.

LATEX COATED GLOVES

Natural rubber dispersed in water is known as latex. Natural rubber has a very high elasticity compared to other glove materials, excellent cut and tear resistance, outstanding grip and superior temperature resistance. It withstands water, alcohols, and some ketones, but has poor chemical resistance against most hydrocarbon and organic solvents. Some people may experience an allergic reaction to latex.

JW POLYESTER CRINKLE LATEX PALM GLOVES /34120

SIZES: 9 10
COLOURS: Blue
FEATURES: 10 Gauge grey polyester shell with blue crinkle latex coating / Latex crinkle coating provides superior grip in wet and dry conditions / Flexible and comfortable / Ergonomic shaped curved finger pattern / Excellent breathability / Good grip / Suitable for assembly, construction, inspection, material handling, refuse handling, landscaping, gardening / Wrist length

PVC GLOVES

Polyvinyl Chloride (PVC) is a thermoplastic polymer of vinyl chloride. PVC offers good abrasion resistance, but may be susceptible to punctures, cuts and snags. While it is flexible, it does not provide the tactile sensitivity associated with most rubber products.

PVC starts to soften at approximately 82°C. PVC is effective against water and most aqueous solutions, detergents, and diluted bases and acids. It only has limited chemical resistance to organic solvents.

PVC is one of the more common coatings for coated work gloves and serve many industrial purposes. PVC coated gloves are used extensively in the construction industry, in oil refineries, oil exploration, and oil drilling. They are also used extensively in the mining industry, and in chemical manufacturing. However, they are just as suitable for home use.

JW SMOOTH PVC KNIT WRIST GLOVES /32171

SIZES: Standard
COLOURS: Red
FEATURES: Cotton interlock shell with red PVC coating / Knit wrist, fully coated / Excellent anti-slip, abrasion and chemical resistance / Good grip / Oil proof, anti-acid and anti-alkali penetration resistance / Suitable for construction, mining and machinery maintenance industries / Wrist length

LEATHER GLOVES

Leather work gloves are capable of tolerating some of your most rigorous jobs. Leather helps protect workers' hands from exposure to cold, heat, abrasion, sharp edges, cuts and punctures. It also offers a tolerance to extreme weather conditions. These characteristics make leather an ideal choice for work gloves.

Choosing the right leather glove for the task ensures you get the most out of your leather gloves.

If the worker's hand protection requires working with rough materials such as wood or metal, then choosing a thick-skinned leather glove will be the best choice for protection from abrasion and cuts.

If the task requires dexterity and tactility, then choosing a thin-skinned leather glove will allow workers the sensitivity and flexibility they need to perform their job.

LEATHER VS SYNTHETIC LEATHER

Leather gloves perform better in:

- Applications that need flame resistance, like welding or oil and gas
- Heavy-duty abrasive applications such as lumber handling

Proper care should be given to leather gloves to lengthen their longevity. Colder weather and increased moisture in the air can turn leather gloves rigid, cold and damp.

Synthetic leather gloves excel in cold or wet weather. They are lighter, thinner and can dry very quickly. These features offer added comfort and flexibility, without compromising on necessary qualities like abrasion and tear resistance. Their multi-layer construction means that synthetic leather gloves also boast lots of cool extra features over their natural leather counterparts.

JW SYNTHETIC LEATHER MECHANICAL GLOVES

EYE PROTECTION

Comfortable, durable eyewear designed to reduce the risk of injury.
Our range of eye protection meets all safety standards and offers you protection from dust, chemicals, sparks, flying objects, flames, strong glare and fogging.

PROTECTION FOR YOUR **EYES AND FACE**

People use eye protection if their work exposes their eyes to potential threats and dangers. A perfect example is the danger many welders face when exposed to flames, flying particles, strong glare and shooting sparks. It is important for them to use specialised welding goggles or a welding mask to shield their eyes from these threats and dangers.

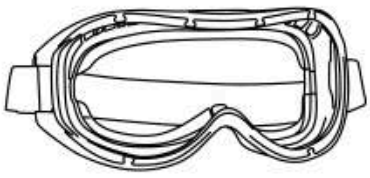

Many manufacturing companies use infectious fluids, chemicals, acids and other caustic liquids that may strike the worker's eyes, hence the need for proper eye protection.

Choosing the right eye protection is a necessity to avoid eye destruction!
SAFETY SPECTACLES - Available in many styles, but do not keep out dust, gas or molten metal. They are intended to protect against low energy impact debris and objects.

SAFETY GOGGLES - Offer protection against a variety of hazards, including dust, smoke, fine particles, chemical splashes, sprays, gases, and low to medium energy impact debris and objects.

SAFETY SPECTACLES
for eye protection against:
- Low energy impacts (45 m/s)
- Harmful rays (ultraviolet / infrared)

SAFETY GOGGLES
for eye protection against:
- Medium energy impacts (120 m/s)
- Dust, fine particles or harmful chemicals
- Molten metals and hot solids
- Harmful rays (ultraviolet / infrared)

CHOOSE YOUR TYPE OF PROTECTION

WHAT IS THE MAIN RISK IN YOUR WORKPLACE?

CLEAR
EN166 - EN170

For indoor use where eye protection is required against most commonly encountered hazards (i.e impact protection).

Absorbs > 99.9% of UV radiation up to 385nm
Visible Light Transmission: 92%
Lens Material: Polycarbonate (unless described as acetate)

60120

ANTI-FOG
EN166 - EN170

For indoor use where eye protection is required against commonly encountered hazards. Added abrasion-resistant, anti-fog coating.

Absorbs > 99.9% of UV radiation up to 385nm
Visible Light Transmission: 92%
Lens Material: Polycarbonate (unless described as acetate)

60121

I/O SILVER
EN166 - EN170 - EN172

For indoor or outdoor use, provides protection against most commonly encountered hazards. High performance lens to reduce artificial and sunlight glare.

Absorbs > 99.9% of UV radiation up to 385nm
Visible Light Transmission: 45%
Lens Material: Polycarbonate

60122

GREY
EN166 - EN170 - EN172

For outdoor use when sunlight and glare can cause eye fatigue. Provides protection against most commonly encountered hazards.

Absorbs > 99.9% of UV radiation up to 385nm
Visible Light Transmission: 22%
Lens Material: Polycarbonate

60124

HDL YELLOW & AMBER
EN166 - EN170

HIGH-DEFINITION LENS
For high visibility and maximum contrast in low light conditions. Provides protection against most commonly encountered hazards.

Absorbs > 99.9% of UV radiation up to 400nm
Visible Light Transmission: 87%
Lens Material: Polycarbonate

60123

IR SHADE 3
EN166 - EN169 - EN171

For welding applications, oxy-cutting and gas welding. Protects against ultraviolet and infrared radiation. Minimises the risk of damage from welding sparks

Visible Light Transmission: 17%
Lens Material: Polycarbonate

60125
